Fold the inside of the ears to give them a curl shape inside.

Glue the whiskers and the medal when the numbers get to them. Do so before closing the head.

Start the tail at the tip.
Start at the side of the curl
with the tabs and build
around it. I suggest you
reinforce the connection
between the tail and the body.

38

Close the body at the place where it connects with the head. Glue the head after both are closed.

40

Start the arms at the paws. You need to fold the indicated lines to give it a smooth shape.
