Refer to the pdo
when building the
fingers, they are
the hardest part.

Glue the back details using good glue when the numbers get to them.
39 take some time to glue, so hold it in place for a while.

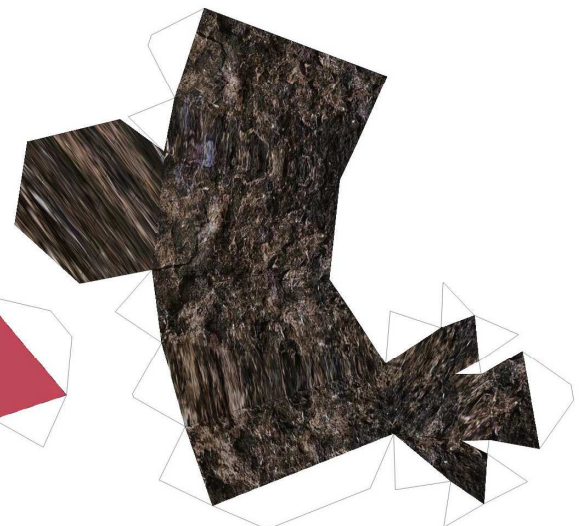

41

39

Fold all the lines on piece 39

Optional base.

You can put weight inside the tail and the right leg before closing. Keep in mind that it's a lot of weight to keep it still.
